

## RECOORDINATION OF MICROPERM SALES

*By a contract signed between Avatron Ltd and Fastpap Oy, the worldwide sales rights for Microperm have been transferred to Fastpap Oy (Tampere, Finland).*

*Fastpap will handle all aspects of sales, commissioning, training and services for the end customers. All contacts to Avatron from the end customer regarding Microperm will be re-directed to Fastpap. Avatron will continue as the contract manufacturer of Microperm devices and spare parts, with Fastpap. Fastpap will have full right of use both for the Microperm name and the product rights, which will remain with Avatron.*

*For 20 years, Fastpap has developed and produced products and solutions for better efficiency and lower costs in the paper and cellulose industry. Microperm will add to their product range, which is marketed worldwide. Avatron will provide the training for Fastpap sales and service personnel and support the effortless start-up of this new business at Fastpap. Fastpap Contact details are available at [www.fastpap.com](http://www.fastpap.com)*

*By this solution, Microperm will be brought to the markets in a more active way, with more resources and better services for the end customer. The contract is seen as very beneficial for both Fastpap and Avatron, and will surely give the Microperm product a strong boost.*

Pasi Hämäläinen  
Managing director  
Avatron Ltd.
